

Your Global Marking Partner since 1940

DOT PEEN SOLUTIONS CATALOGUE

Machines and systems
for industrial marking

www.automator.com

WHY CHOOSE AUTOMATOR?

Since its founding in 1940, AUTOMATOR has been focused exclusively on Industrial Marking Products and Solutions making us the largest manufacturer of marking equipment in the world.

No matter how you want to permanently Identify your product, AUTOMATOR has a solution that will exceed your expectation making a mark that will enhance your part and limit your liabilities.

Our GLOBAL network of partners (not just distributors!) are available in 102 countries serving 100+ business sectors. No matter where you are in this world, we are there to support you and our marking products, birth to death.

**We are your global
marking partner
since 1940!**

DOT PEEN TECHNOLOGIES

Vibrating Dot Peen
Characters are marked with a small pin while vibrating. Highly recommended for fast marking with very high quality needs.

Electric Dot Peen
The pin is moved electrically by drive and return electric spring solenoid. Air not required. Recommended for high quality needs.

Pneumatic Dot Peen
The Pin is moved automatically by opening and closing the drive and return air. Recommended for marking on irregular and rough surfaces.

Deep Dot Peen
The Air Solenoid has an increased capacity. Specialized pins are required for deep markings on the most resistant materials.

Controlled Dot Peen
Font characters are created with possibility to specify the density of the dots to be marked from 0 to 80 pixel/cm. Recommended for deep marking.

Scribe Marking
Markings are made by striking the surface and removing the material for deep and silent marking.

Automator is cetificated CISQ,
the consortium for IT Software Quality

Automator Group believes in rational energy use as input
in the design and development of its marking systems

Automator is certificated ISO 9001 IQ Net since 2003

Automator Group believes that all its machinery must be
designed and produced according to the concept
of “green philosophy”

AC500

CONTROLLER FOR DOT PEEN AND SCRIBE MACHINES

UNIVERSAL AND FULL OPTIONALS

The AC500 controller can be used with a PC or alone with the special Automator MarkAlone™ technology. The 7" touchscreen makes the many software's features easy to manage and use. For the first time, industrial marking reaches the maximum in efficiency and intuitive simplicity.

SOFTWARE

AC500

PC AC250

Software with intuitive and flexible interface, it allows a graphic freedom of absolute value.

Thanks to the touch screen graphic display, it is easy to navigate and to create messages to be marked and set its parameters, displaying also the time of the performance.

The preview allows to represent exactly what will be marked and any change in the message will be displayed instantly. The software provides for the creation of messages with the date in various formats, x or variable texts, codes, serial numbers, Data matrix and logos. Possible the creation of the programs on the PC, which can be easily transferred to the AC500 controller with USB stick or USB connection.

OPTIONS

For all models

X/Y axis

Stroke 11,8x11,8"
stepper motor; maximum
weight 88 lbs

Extension

For 1,5"
cartridge

Rubber protection for ADPs

To protect the marker from
dusts and infiltrations

Portable standoff

Handheld for ADP
markers

Rotating axis to mark on circumferences

For diameters up to 3,7", stepper
motor; maximum weight 16,5 lbs

Command box

With start/stop buttons
and cable

Start marking pedal

With cable and adapter

For all models

OPTIONS

Plate holder

Plate fastening system with double spring anchoring for dot peen markers

Radial extension kit

3,3" and 5,2"

Portable kit

Two-handed handheld

Manual or motorized Z axis

Available in height standard or up to 47"

Tag Feeder

Automatic dual guide tag feeder with electro-pneumatic pushing system that the registration of the height of the marking head.
